

# EWCHP-2013

EWCHP-2013  
3<sup>rd</sup> European Workshop  
on Cultural Heritage Preservation  
Bozen / Bolzano, Italy, September 16 to 18, 2013

[www.3encult.eu/en/ewchp](http://www.3encult.eu/en/ewchp)

MORNING SESSION 9:00 – 12:00

## **Innovative Technology for Mitigation of Pollutant Impact for Museums, Archives and Libraries** **Coordinators: Elin Marie Dahlin, Terje Grontoft and Karin Drda-Kuehn**

**Short presentation of the MEMORI system** for measuring air quality and evaluation of related damage risk to movable cultural heritage object (~30 min)  
Including a description of MEMORI workflow - for measurements and preventive action, and an example of performed MEMORI measurements, to guide later group work.

### **Group work to let participants apply the MEMORI air quality evaluation methodology** (120 min):

- The workshop participants are divided in groups (~ 4 persons)
- The groups evaluate IAQ for movable heritage based real location MEMORI measurement results that are distributed.
- The groups answer a set of questions related to preventive conservation and mitigation for the locations – based on their MEMORI charts.
- The groups choose a rapporteur to present their discussion / conclusions.

**Discussion** (~20 min)

**Conclusion- Summary by organizer** (10 min)

3ENCULT is co-funded by the European Union Seventh Framework Programme (FP7/2007-2013) under grant agreement n° 260162.
